

Rain Garden Community Meeting

Tuesday, January 17th at 7pm
Robbins Library community room
700 Mass. Ave., Arlington, MA

RAIN GARDENS are vegetated areas that collect, absorb and clean stormwater runoff. Using slope, vegetation and well drained soils, rain gardens are increasingly being used by homeowners and municipalities to reduce the impact of stormwater on local waterways and storm drain systems.

You're Invited!

Do you care about the environment in Arlington?

Do you want beautiful streets and clean water?

Come help us build a rain garden!

The **Town of Arlington** and the **Mystic River Watershed Association** are installing 1-2 rain gardens in 2012. Come have your voice heard about where you'd like to see the next Arlington rain garden and find out how you can be involved!
