

Please pick up my poop.

Know what's grosser than picking up dog poop?

Stepping in it. Know what's even grosser than that?

Swimming in, fishing from, and boating in water that has dog poop in it!

Please pick up after your pooch.

Image by the Washington State Department of Ecology, King County, and cities of Bellevue, Seattle, and Tacoma. Postcard design and text by the North Carolina Department of Environment and Natural Resources.

Cleaning up pet waste is good for your health and the environment! Seriously.

Pet waste left on the ground, especially near streets and sidewalks, gets washed into storm drains and drainage ditches which flow to our local waterways...without being treated!

Bacteria, parasites, and viruses found in pet waste can be harmful to water quality and human health. Not only is picking up after your pooch the neighborly thing to do, it's the healthy thing to do... for you and the environment!
