### Key Takeaways

1. Having a diversity of uses helps attract more people to this side of the channel and can better serve all ages
2. Many of those who didn't vote for the "hangout" option wanted to ensure the park has more trees and nature spaces
3. We need to better communicate infrastructural improvements (Lighting, Trash Cans, Restrooms, Outdoor Grills, Benches, etc)
4. How can we improve activities directly tied to the water? Such as the floating dock, boat ramp, and water play areas.
